Heating System

We are pleased to be able to announce that we have placed an order for the replacement of the heating system, and work will be starting on the 26th July. Most of the work will be taking place in the boiler room, and we hope to keep disruption of other activities to a minimum with some events already cancelled. The new heating system will allow the heating to be more efficient, and better controllable which will hopefully reduce our gas bill. The work is all being funded thanks to the generous legacy we received for building maintenance and upkeep from the late William Potter.
